DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 and 9, drawn to a method and system for transmitting and receiving electronic receipt information having first and second processing devices.

Group II, claim(s) 6 and 7, drawn to an electronic apparatus which stores guarantee information.

Group III, claim(s) 8, drawn to an electronic apparatus which receives receipt information and records only information relating to the apparatus.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: group I relates to a method and system for transmitting and receiving information and includes first and second processing devices (classified in 705/21), group II relates to an apparatus for storing information (classified in 705/26), and group III relates to an apparatus that receives information and only stores selected information (classified in 705/24).

3. A telephone call was made to Jeff Sopko on November 9, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER R. BUCHANAN whose telephone number is (571)272-8134. The examiner can normally be reached on Mon.-Fri. 9:00am - 5:30pm.
